STANDARD OIL BREAKS INTO UTAH FIELDS

Many Becoming Interested in Oil Fields Around Vernal and in the Rangeley District.

throughout the basin in the matter of oll development, says the Duchesne Record. Near Dragon several rigs are being set up preparatory to sink

The Emerald Oil company which has three wells bored at Rangeley are preparing to patent their holdings and are interesting some outside capital in their project. While the oil flow in any of the wells so far drilled in the field is not extensive, the quality

In any of the wells so far drilled in the field is not extensive, the quality of the oil is said to be as fine as has ever been found. One outfit, supposed to be backed by the Standard Oil company is preparing to go down \$.000 feet or more and are already past the 4.000-foot mark.

The Tunnel Oil company, near Dragon, in which John Rock and Marcellus Pope are extensively interested has contracted the entire output of the well at 10 cents a gallon at the mine. Considering the very fine quality of the product, this price is extremely low, but as the output at this figure is greatly in excess of the running expenses, the company will be put on a dividend paying basis, which means an important bearing on the value of the company's stock.

Several companies have also been organized to put down wells about 10 miles southwest of Vernal, where the geological indications are said to be perfect for an enormous oil basin. The Record understands that several outfits are preparing to test this field. The Duchesno Oil company with H. C. Means as president and George H. Mulvey, vice president, announces that it will probably be in shape to commence drilling in the spring on extensive holdings in the Vernal field and the Colorado & Pacific Development company is also preparing to bore in the same vicinity.

MARKET GROWS WEAKER. Trading Is Slow and Prices Go Down

Trading Is Slow and Prices Go Down On Local Exchange.

There was but little activity on the local stock exchange this morning and hardly a stock showed any signs out of the ordinary. It was a dull, listless day. During the entire morning session all the trade that could be drummed up was the selling of 41,423 shares of stock at \$10,054.83.

In spite of the fact that a dividend in Colorado was announced there was no change in price. In all 700 shares were disposed of but each of the lots changed hands at the same price, 80 cents. This piece of news failed to affect the market Iron Blossom was slower and slightly lower. Columbus Consolidated which has been the feature of the week started dropping yesterday afternoon and today was in the hands of the bears. It went as low as 90 cents after opening at 95 cents.

The announcements of dividends for the Tintic securities had no effect whatever on the market I anything it was slower and lower.

On the curb market there was more activity. The sales were: 300 shares of Bingham Standard at 25 cents; 100 shares of Opex at 62 cents and 66 shares at 60 cents; 1,000 shares of Tintle Standard at 7 cents.

SAYS PIOCHE IS VERY QUIET.

Expect Railroad to Reach Camp With-

in Three Months.

J. B. Wheeler of the Lucky Boy and Milwaukee Mining companies at Ploche, and one of the old residents of that district, is in the city, on business, Since the washout which cut Ploche off the railroad mining has been slower and the forces of men have been reduced, Fair sized forces of men are still pushing work on the Prince Consolidated, Demijohn, Centennial Ploche, Ely Valley, Mendha, Golden Prince, Consolidated Ploche and Poorman Group.

"There are now some 500 people in the town and probably 100 to 125 miners are employed in the camp," said Mr. Wheeler, "Our greatest difficulty since the washout has been procuring a sufficient supply of fuel and particularly gasoline to operate the engines at the mine. It is on acin Three Months.

ficulty since the washout has been procuring a sufficient supply of fuel and particularly gasoline to operate the engines at the mine. It is on account of the scarcity of gasoline that work has been curtailed.

"Gasoline ordinarily costs about 20 cents a gallon, but we cannot afford to add several hundred per cent to this cost by paying the now necessary wason haul of 48 miles from Modena, our nearest railroad point. And the wagon road to Modena is in bad shape—the snow is two feet deep in places, while in spots deep mud impedes traffic. But our Commercial club has been promised railroad connections inside of 60 to 20 days so the camp will do the best it can until then, all ore shipments being out of question. But much good ore will be piled upon the dumps or sacked and housed during the period, ready for shipment to the smelters when trains once more begin running into Ploche, which we hope will be by the first of April. Then this great silver-lead camp will again give a creditable account of itself to the mining world."

BIG DECREASE IN COPPER

New York, Feb. 10.-A decrease of 13,302,772 pounds in copper stocks on hand Feb. 1, as compared with Jan. 1, is shown by the monthly report of the Copper Producers' assoclation, made public here today. The report follows:

"Copper on hand Feb. 1, 98,462,229 pounds, a decrease of 43,302,772 pounds as compared with Jan. 1. Production during January was 116. 547,287 pounds, a decrease of 1,281,368 pounds as compared with Decem

"Delivered during January were 159,850,059 pounds, an increase of 30.783,988 pounds, as compared with

"Of the total deliveries, 78,158,387 pounds were for domestic purposes and 81,691,672 pounds were for ex-

TINTICS ANNOUNCE DIVIDEND PAYMENT

Victoria, Grand Central and Sloux Will Pay Quarterly—Iron Blossom and Colorado Pay in March.

announced that they would pay divi-dends this morning and two companies declared the date on which they will pay the first quarterly dividend. The remaining three companies simply de-clared that quarterly dividends would be paid but made no statement as to the amount or the date of payment of the first dividend.

the amount or the date of payment of the first dividend.

At the meeting of the directors of the Colorado Mining company this morning it was announced that the first quarterly dividend of the company would be paid on March 20. It will be 10 cents a share on the stock of record March 15, the date of closing the bools. The books will open March 21. This means that Colorado will distribute another velvet roil of \$100,000 among its stockholders, which is paying \$1,600,000 in 13 months.

Iron Blossom announced that it would pay a dividend of 8 cents on March 25 and open on March 21. This means the disbursement of \$80,000 and brings the total dividends or this property up to \$540,000 since ore was discovered less than a year ago.

It was reported at the meeting that the mines are both in good shape and there is enough ore in sight to pay the present rate of dividends for some time to come and at the same time create a surplus.

Grand Central and Victoria did not

to come and at the same time create a surplus.

Grand Central and Victoria did not hold meetings today on account of the absence of several of the directors. It was announced that these two companies would pay quarterly dividends hereafter. The time and the amount of the dividends have not been settled yet. The regular monthly meeting of the Sloux Consolidated was held today but no statement was issued as to the date in intends to pay its initial quarterly dividend or the amount of the payment. According to Supt. W. D. Loose the mine is in excellent shape and the present development work will shortly open up new reserves.

Opex Consolidated and other Knight companies are holding their regular monthly meetings today to hear reports.

Opex Consolidated and other American companies are holding their regular monthly meetings today to hear reports from the properties. George T. Odell. M. H. Walker and other directors of the Opex from Salt Lake are in the city today.

UTAH MEN MAKING DISTRICT.

Another Jesse Knight and Partner Purchase Good Springs Ground.

Another Jesse Knight and Partner
Purchase Good Springs Ground.

Among the men who are adding life to the Good Springs or Yellow Pine district of Nevada are Jesse Knight, A. G. Spaulding, a well known sporting goods man from Chicago and J. Hyde of Utah. They are still among the shippers of the district in spite of the washout interfering with traffic. Since ore could not be sent by way of the Salt Lake Route to Iola, Kas., it has been shipped over the Santa Fe. Although the route is longer the same price has been made.

Jesse Knight does not happen to be the "Wizard of Tintic," but his nephew, who is making good in the mining world. Mr. Knight now has a string of 40 mules hauling from his Milford mine in the district to the station on the Santa Fe, and has just purchased another string that is almost as large. With these added facilities for hauling it is asserted that the Milford mine can send out a car of zinc ore a day. It is now shipping about three cars of ore a week.

Mr. Knight is also reported to have purchased the Prairie Flower, Jarman and Robbins properties. These properties are to also be worked on a larger plan shortly. Mr. Hyde is Mr. Knight's business partner and in the mining business Mr. Spaulding has become associated. Mr. Knight and Mr. Hyde are both Utah men.

The firm of Knight & Hyde is not devoting all its sixty.

business Mr. Spaulding has become associated. Mr. Knight and Mr. Hyde are both Utah men.

The firm of Knight & Hyde is not devoting all its time to the mining business but has heavy interests in contracts secured in various parts of southern California. Mr. Hyde is caring for the contracting business while Mr. Knight has been devoting most of his time to mining.

It is declared that the men have purchased some of the best properties in the Good Springs district and intend to push work to open up the properties as they should be.

ed Mining company for the year ending December 31, 1909, shows: Proceeds of bullion and concentrates, \$416,224; cost of mining and milling, including depreciation and all other Nevada expenses, except legal, \$325,755; interest, \$14,589; administration expenses, all companies, \$19,175; total, \$359,520; profit for year, \$86,703.

General Manager Kirchen, in his report, says that there was treated at the mill of the Builfrog Reduction and Water company 686,310,41 tons of dry ore, the average value of which was \$7.51 per ton, or a total value of \$516,514. The total milling cost was \$156,049, equal to \$27 per ton. The average extraction was \$5.97 per cent as compared with \$7.05 per cent. In 1908, the lower extraction being due to the extreme cold weather.

NEBO NATIONAL INCORPORATES The Nebo National Mining company filed its articles of incorporation this morning in the secretary of state's office. The concern is capitalized for \$10,000 divided into shares at one cent each and has headquarters in Nephi, Utah, W. D. Rawson is president; C. E. Erickson, vice-president; John R. Stewart, secretary and treasurer. With these officers Harvey Cluff and Andy J. Stewart form the board of directors.

CONCENTRATES.

Z. B. Drum, a well known Ely mining man, is in the city on his way from Jarbridge to Denver. Burley drills have been started in the faces of the two drifts on the 700-foot level of the Tintic Standard. With this equipment the company expects to make much more rapid work.

Anthony H. Godbe, manager of the Prince Consolidated mining company at Pioche, has returned after several months spent in New York on busi-ness.

General Manager Tony Jacobson of the Columbus Consolidated Mining company at Alta, is still at the mine watching developments. It is not ex-pected he will return before the last of the week as he is watching the work being done on the recent strike there.

Prof. J. H. Weber is in the city today from the Copper Jack property in the Tintle district. Prof. Weber says that on account of a fire at the property and other accidents, work has proceeded very slowly. He expects to have the property well along toward being opened up by Kewstone drills by spring.

Reports from the Snake Creek district say that a full face of carbonate ore carrying pay values has been encountered in the 170 foot tunnel in the Thor property. The tunnel is moving along the foot wall and for some time has been in vein matter carrying values. A depth of about 100 feet has been obtained. It is expected that a large fissure will be cut some 70 feet further.

The organization of the recently elected board of directors of the South Columbus Consolidated mining company yesterday resuited in the selection of the following officers: George H. Watson, president and general manager, A. L. Jacobs, vice-president, W. P. Davis, treasurer, and Arthur Magoon, secretary. The executive committee consists of George H. Watson, Arthur Magoon, A. F. Elggren and T. Tobiason.

RED-MAN STORAGE

STOCKS ADVANCE, DEMAND SUBSIDES

New York, Feb. 19.—Prices of stocks started upward today with a broad and active demand throughout the list. The gains extended to a substantial fraction for most of the active speculative stocks. Republic Steel gained 234, National Lead 134. United States Rubber and Utah Copper 135, Wabash preferred 125. Central Leather I, Wells-Fargo II.

A slight reaction was soon overcome, the standard railroad stocks rebounding to their best figures at the opening, while a number of industriple sold well above that level. National Lead rose 3, Allis-Chalmers preferred 236, Pullman 2, American Locomotive 126, Norfolk & Western, Consolidated Gas and Inter-Metropolitan 126 and Reading, Union Pacific preferred, Southern Railway preferred, Big Four, the lowa Central stocks, Amalgamated Copper, American Smelting, American Car, Tennessee Copper, American Beet Sugar, American Woolen I.

The demand subsided at the advance.

NEGRO WITH A GUN **ROBS TWO WOMEN**

Mrs. Hansen and Daughter Have Terrifying Encounter With Black Brute.

At 9:39 o'clock Wednesday night a negro robbed Mrs. E. M. Hansen and her daughter, Clara, of their purses containing \$18, on Fourth South between Third and Fourth East streets. The women were on their way home at The women were on their way home at No. 2 Fairmont avenue when the negro ran up behind them and demanded their money. The women refused to surrender the purses and the negro fired three shots in the air and threatened to shoot the women if they did not comply with his demands. The thug then selzed the purses and ran down the street.

Mrs. Hansen at once reported the affair to the police and a search was made for the robber but the police could get no trace of the man. The purses were found near the city and been taken out of them.

This morning Patrolman Egbert arrested a negro who gave the name of R. L. Morgan and took him down to the Hansen residence. After seeing the man both Mrs. Hansen and daughter said that he looked very much like the holdup but they were not positive as to his identity.

A private safe may be rented in the fire and burglar-proof vaults of the Salt Lake Security & Trust Co., 32-34 Main street, \$2.00 per year.

WAS BEATING HIS SISTERS.

Police Searching for John Aldrich on

Today the police are scouring the city for John Aldrich, aged 19 years, living in State street between Fifth and Sixth South, and if they succeed in arresting him he will no doubt serve a term in the city jail for battery upon his two little sisters.

Shortly after 9 o'clock this morning a telephone message was received at police headquarters to the effect that a man was beating two little girls and that they were screaming for help. Their cries attracted 15 or 20 men to the scene, but none dared to enter the house. Patrolmen Griffith and Egbert hurried to the scene in the patrol wagon, but before they arrived Aldrich had crawled through a window and escaped.

The two little girls aged 10 and 12

had crawled through a window and escaped.

The two little girls, aged 10 and 13 years respectively, told the police that their brother became enraged this morning and, for some unaccountable reason, attacked them. He struck both of them several times and hit one on the head with a shoe. A neighbor heard the children screaming and telephoned for the police.

HE BLUSHED AND BLUSHED.

Gorgeous Decorations on Elevator to Welcome Young Bridegroom Today.

ride in the elevator which holds forth on the Main street entrance of the Oregon Short Line building were surprised this morning at the decorations

prised this morning at the decorations which are everywhere evident in the cage which travels up and down, and were likewise astonished at the blushing countenance of George Timmins, who has for several years been at their beck and call when they pressed the magical button. Timmins had little to say, but blushed, and blushed, and blushed.

The mystery was cleared when it was learned that he had become a benedict. The bride was born Dorothy S. Sorenson, and she is the daughter of Mr. and Mrs. George Sorenson of Idaho Falls. The ceremony was performed Wednesday afternoon by Elder J. U. Eldredge, Sr., at 3 o'colck. The home of the newly married couple is at No. 9 Washington avenue, where a party, composed largely of family friends who had surprised the secret, spent a merry evening.

UTAH COUNTY FARMERS SEEK QUICK RELIEF

Claim Their Pastures Are Flooded on Diverting Dam.

City Engineer George F. McGonagle and J. Fewson Smith, Jr., court com-missioner, who has charge of the dito the high levels from a shade to ½ higher, with May at 1.10½ to 1.105½.

Covering by shorts gave an upward trend to the early trading in corn, opening figures being unchanged to ½ higher. The strength of the wheat pit was felt in corn and helped along an advance in the first hour of from ½ to ½. Frices steadled upon the upper register, May moving up from 6.5% to 6.5% @ ½. Opening prices for May were 6.5% to 6.6 unchanged to ½ higher than the previous close.

Outs also showed firmness, induced by the strength of the other gains and opened from a shade to ½ higher. In opened from a shade to ½ higher. Suit Involving Lands Worth \$30,000,-000 Is to Be Launched in Idaho Shortly.

Settlers in the neighborhood of Min pending Southside-Northside-Minidoka irrigation suit, which threatens to become the biggest thing of its kind in the history of irrigation in the west, it not in the world. The water rights of over 600,000 acres of land are involved. Before breaking up, that land with water is worth \$50 an acre, making the amount involved in dollars and cents over \$30,000,000. When under cuitivation much of the land is worth hundreds of dollars an acre when planted to fruits and vegetables. Attorney A. M. Bowen of Halley came down from the north this morning and is registered at the New Windsor, his business here being to consult with leading tile attorneys of the state. He represents the Southside settlers in the contest. One of the main features of the case will be to determine priority rights between the settlers on the two sides; then the Minidoka firigation company has rights, too, that the courts will have to settle before the big conflict is at an end. The water over which the fight will be waged is taken from the Snake river, which is today perhaps one of the greatest irrigation streams in the world, affording as it does an ample supply for several millions acres of agricultural lands. irrigation suit, which threatens to be-

SUGAR WEIGHING FRAUDS.

Former Dock Supt, Oliver Spitzer Gets Two Years' Imprisonment.

New York Feb. 10.—Oliver Spitzer, former dock superintendent of the American Sugar Refining company's plant at Williamsburg, was sentenced today to two years in the federal penitentiary at Atlanta, Ga., for his part in the recent extensive sugar underweighing frauds. Spitzer's application for 'admission to bail pending appeal was denied.
